

AT-LP60XUSB

FULLY AUTOMATIC BELT-DRIVE TURNTABLE (ANALOG & USB)

Save the unique sound of vinyl as digital files.

Whether you're new to vinyl, rediscovering a treasured record collection or simply adding a turntable to complete your set up, the LP60XUSB fully automatic belt-drive turntable is an easy-to-use option developed and designed by the award-winning Audio-Technica team in Japan.

Product Highlights

- Experience your vinyl's high-fidelity audio and convert your records to digital files.
- Fully automatic belt-drive turntable operation with two speeds: 33 $\frac{1}{3}$, 45 RPM.
- Improved tracking and reduced resonance for a smoother sound.
- Integral Dual Magnet™ phono cartridge with replaceable diamond stylus (ATN3600L).
- AC adapter handles AC/DC conversion outside of the chassis, reducing noise in the signal chain.
- Built-in switchable phono pre-amplifier for phono- or line-level output.
- Convert your vinyl records to digital audio files by downloading and using the free Mac- and PC-compatible Audacity recording software (or software of your choice).

SRP: £149.99/179,00€ (inc. VAT)
